

```
/home/yunhao/stereo  
_ugv/src/stereo_ugv  
/include/stereo_ugv/exception.h
```

A diagram illustrating the structure of a C++ header file. At the top, a gray rectangular box contains the full file path: `/home/yunhao/stereo_ugv/src/stereo_ugv/include/stereo_ugv/exception.h`. Three blue arrows originate from the bottom of this box and point to three separate white rectangular boxes below it. The leftmost box contains the word `exception`, the middle box contains `memory`, and the rightmost box contains `string`. These three boxes represent the namespaces or components that the header file includes or uses.

`exception`

`memory`

`string`
